

East Africa Margin

Digital Maps, Regional and Block Evaluation Reports

NEW NOW available to purchase as individual countries NEW

Introduction

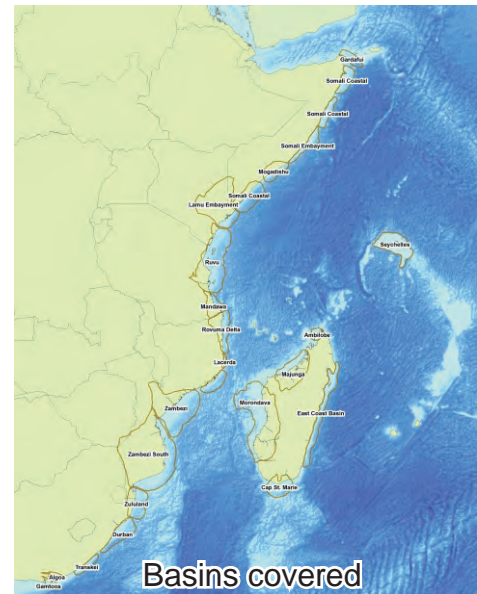

The East African margin was an under-explored region until the recent discovery of giant gas fields in Cenozoic and Late Cretaceous turbidite deposits. Our new digital atlas of the East African Indian Ocean Margin aims to bring explorationists up to speed with hydrocarbon plays and exploration activity in the region, and reviews the geology and future hydrocarbon potential. ArcGIS maps cover the area from South Africa to the Horn of Africa in an ArcGIS format.

Basins Studied: 12 PowerPoint Dossiers

(No. of figures in brackets)

- Gamtoos, Algoa & Transkei (48)
- Durban & Zululand (41)
- Mozambique (57)
- Rovuma (57)
- Mandawa & Mafia (50)
- Pemba Trough & Zanzibar (29)
- Lamu (54)
- Somali Coastal (32)
- Socotra (27)
- Seychelles (44)
- Majunga & Ambilobe (46)
- Morondava (51)

Total number of figures 539

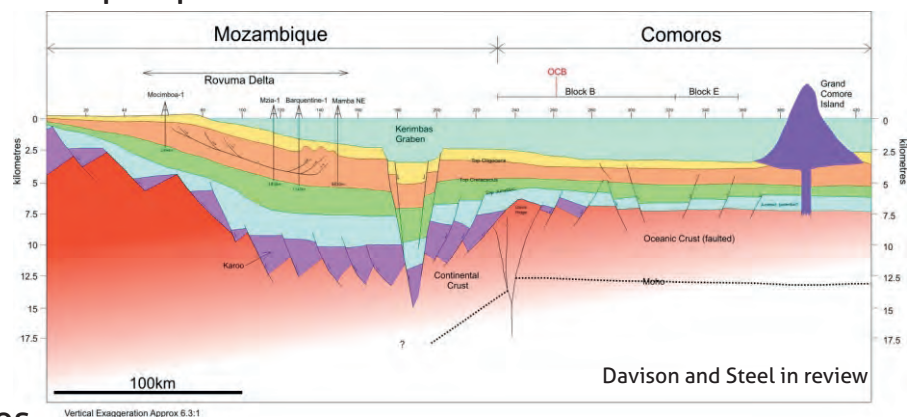

Data included

Surface geology coverage at 1:1,000,000 scale of adjacent countries to the Indian Ocean Margin, interchangeable legend between lithology and chronostratigraphic colour schemes. Each shapefile includes attribute table information on the formation, rock types and age. Free air gravity, Bouguer gravity with band pass filtered versions, magnetics, structural features, oil seeps, drainage patterns, well locations, blocks, sediment isopachs, temperature gradient, oil and gas fields, prospects and leads, basin outlines and much more...

Linked sections #510+

Linked Wells #198

East Africa Margin Summary

- ArcGIS project
- Bibliography #870+ references
- Hardbound A3 atlas and digital format #115 figs
- 12 individual basin dossier PowerPoints: electronic copy and A4 hard-bound copy

Purchase Options

Full Digital Atlas and reports for East Africa - \$36,000 USD

Country Specific Reports - \$ Price on application

Digital Atlases and Reports can now be purchased for individual countries, please ask for details
